

Q2 FY2026 Financial Review

Document ID	FIN-2026-Q2-001
Owner	Finance
Classification	CONFIDENTIAL
Access Scope	CEO, CTO, COFOUNDER, FINANCE_HEAD, HR_HEAD
Effective Date	2026-07-15

Executive Summary

Q2 revenue closed at INR 108.2 million against a plan of INR 105.0 million. The quarter benefited from stronger enterprise renewals and improved conversion on mid-market accounts.

Operating expense ended below budget by INR 1.3 million despite higher cloud consumption. The main variance came from delayed external consulting spend and a lower-than-planned travel envelope.

Revenue Drivers

Enterprise renewals contributed INR 61.4 million and accounted for the largest share of quarterly revenue. New enterprise logos contributed INR 24.7 million, while self-serve and expansion revenue contributed the remainder.

The finance team is monitoring concentration risk in the top ten accounts and expects the new annual-contract packaging to improve revenue predictability during H2.

Cost and Cash Position

Cash on hand at the end of June was INR 146.5 million. The operating runway remains within the board-approved planning range, subject to the Q3 hiring plan and the proposed infrastructure expansion.

Cloud and data-processing costs were 7.8% above the Q2 plan because of increased retrieval and inference workloads. Technology and Finance will review capacity commitments before the next renewal cycle.

Management Actions

Finance will refresh the rolling 13-week cash forecast every Monday. Department owners must explain any month-end operating variance above 8% or INR 500,000, whichever is lower.

A revised H2 cost envelope will be presented at the August leadership review.

Selected Metrics

Metric	Q2 Actual	Q2 Plan	Variance
Revenue	INR 108.2M	INR 105.0M	+3.0%
Operating Expense	INR 62.2M	INR 63.5M	-2.0%
Cloud Spend	INR 7.3M	INR 6.8M	+7.4%
Cash Balance	INR 146.5M	INR 140.0M	+INR 6.5M
